

The Sunshine Terrace Foundation is a 501 c (3) non-profit healthcare organization dedicated to assisting qualified clients who need care and service, but cannot afford it. We have an established Uncompensated Care Policy developed to help those who qualify.

A hard copy of the Uncompensated Care Policy, and application form, in plain language are available for free upon request. These documents are available through mail delivery or are available in public locations where patients have easy access such as our admissions office.

Please contact the facility administration with any questions.
